

Realising the Power of the Network

Enabling the Internet of Everything

8-11 October 2012, Berlin, Germany

ICIN Conference Provides Hype-Free Information and Insights

Join leading telecom industry experts in Berlin, Germany, October 8-11, 2012 for insights into the future of network services and applications.

If you are serious about technology, services and networks then you should attend ICIN 2012 to learn how adding intelligence to the network can add revenue, improve business fundamentals and enable a more profitable business.

The focus of [ICIN 2012](#) is voice, data or multimedia services for enterprises or consumers that make use of capabilities in the operator network. These are becoming increasingly important as the telecom industry transforms itself to meet the challenges and grasp the opportunities presented by OTT players and social networks.

Details of the ICIN 2012 Programme can be downloaded [here](#).

The extensive four-day programme includes tutorials, scientific and technical sessions, demonstrations and posters, and keynote and workshop sessions. Hear the latest results and experiences from leading researchers and practitioners.

REGISTER NOW! if you are serious about services and want to hear the latest results and experiences from leading researchers and practitioners.

You will find additional information on our web site at www.icin.biz.

As the chairmen of the Technical Programme Committee and International Advisory Board, we look forward to welcoming you in Berlin at ICIN 2012.
