

ICIN 2013 is Serious about Services Conference Provides Hype-Free Information and Insights

Join leading telecom industry experts in Venice, Italy, October 14-16, 2013 for insights into the future of network services and applications.

The primary focus of [ICIN 2013](#) is twofold, addressing both how to make networks smarter with a stream on the **transformation of Telcos' networks** and how to make smarter things with these networks with a stream on **the future of real-time communications**.

Full details of the ICIN 2013 Advance Programme containing keynotes, technical papers and pre-conference tutorials can be downloaded [here](#).

The ICIN conference programmes are created by an independent committee of industry experts from papers submitted by leading strategists, engineers and researchers from industry, academia and government. A rigorous peer review process guarantees a cutting edge conference programme free of hype.

ICIN conferences are renowned for their debates on the impact of emerging technology, architecture and industry trends on intelligent communications services.

[REGISTER NOW!](#) if you are serious about services and want to hear the latest results and experiences from leading researchers and practitioners.

You will find additional information on our web site at www.icin.co.uk.

As the chairmen of the Technical Programme Committee and International Advisory Board, we look forward to welcoming you in Venice at ICIN 2013.
